Fort Myers Beach Nov. 8 community celebration and fundraiser to mark grand opening of Tri-Town Construction's new office

Fort Myers Beach (Oct. 31) – A festive community event celebrating the rebuilding efforts of Fort Myers Beach and to raise funds for the Woman's Club will be hosted by Fort Myers-based luxury home builder, Marc Devisse, founder and president of the 17-year-old Tri-Town Construction.

The event will commemorate the grand opening of Tri-Town's Fort Myers Beach satellite office and will occur on Wednesday, Nov. 8, 11 a.m. to 2 p.m., at 1750 Estero Blvd., next to MoJoe's Coffee Café.

"The grand opening of our new Fort Myers Beach office further deepens our relationship with the local community," Devisse said. "The festivities will allow attendees to learn about our custom homes, meet the team and enjoy a gathering complete with a cook-out, games, entertainment, and a chance to give back to the community."

The grand opening will serve as a fundraiser for the Woman's Club, a local nonprofit that supports the educational and recreational initiatives of organizations operating in Greater Fort Myers Beach.

While hamburgers, hotdogs and other refreshments will be served at no charge, monies will be raised by donations. The total amount will be doubled by a matching contribution from Tri-Town Construction.

Tri-Town Construction, which is headquartered in Ft. Myers' Gateway, has established its Fort Myers Beach presence to accommodate the needs of new and existing lot owners looking to build in the wake of Hurricane Ian.

"Our new sales center on Ft. Myers Beach is more than a physical location; it symbolizes Tri-Town's commitment to restoring the vibrant life that once thrived along the shore," said Devisse. "We're committed to innovation and state-of-the-art construction techniques that ensure every structure we build is not just a dwelling, but a sanctuary built to endure," he added.

Tri-Town Construction will help buyers source lots on which to build Tri-Town's custom homes or work with existing landowners to rebuild with Tri-Town's coastal, open concept designs. "We are also excited to work with buyers' realtors and are offering a co-broke on our model homes," said Devisse.

The three- and four-bedroom homes, both with outdoor living space, are scalable to various lot sizes, and measure 1,360 square feet or 1,853 square feet. Two model homes are offered. Both are elevated to meet today's flood zone, exceed current building codes, and are fully hurricane protected with impact glass and standing seam metal roof. "Our homes are built for durability," said Devisse. "They are both luxurious and strong."
